DELL Technologies

Intelligent sound, precise clarity

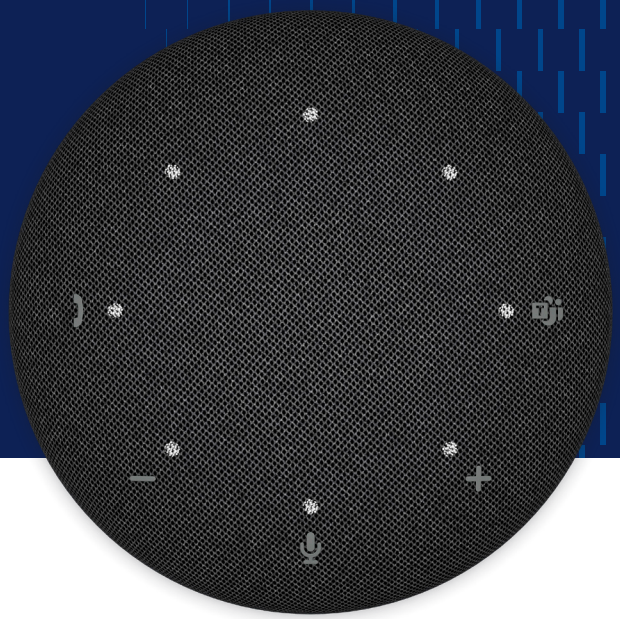
Dell Pro 3 Wired Speakerphone

MODEL: SP325

Certified for Microsoft Teams

zoom Certified

Intelligent sound, precise clarity



Perfect for the modern workforce, the Dell Pro 3 Wired Speakerphone brings intelligent audio performance and seamless compatibility to your workspace. Its compact design is ideal for home offices and huddle spaces, making every meeting professional and distraction-free.

Intelligent & robust audio

AI-enabled dual-directional noise cancellation keeps conversations clear, while a premium 60mm speaker driver delivers louder, balanced sound for calls and music. Full duplex audio ensures natural, uninterrupted communication.

Reliable connectivity

Plug-and-play functionality ensures instant setup via USB-C. The included USB-A adapter expands compatibility, and its compact, durable design is built for professionals on the go.

Optimized integration

Certified for Microsoft Teams and Zoom, it seamlessly fits into your workflow. With Dell Display and Peripheral Manager, you can customize settings effortlessly, delivering a more convenient and tailored experience.

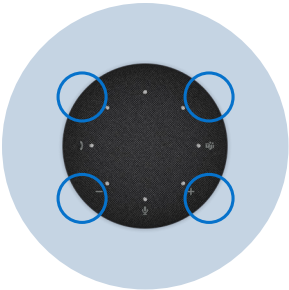
Certified for Microsoft Teams

zoom Certified

Premium audio quality
A 60mm speaker driver delivers rich, crisp sound for an immersive experience during calls, with louder output for clearer listening and balanced sound quality featuring crisp highs, warm mids, and controlled bass.

AI noise cancellation
Dual-directional AI-enabled algorithm ensure clear, distraction-free communication by filtering out background noise.

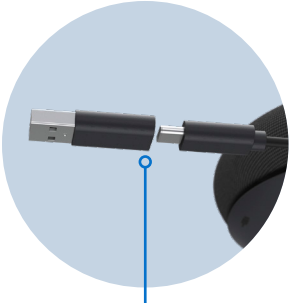
Full duplex audio
Experience seamless, natural communication with the ability for both parties to speak and listen simultaneously.



Superior sound capture
Four omnidirectional microphones deliver clear, consistent voice quality from any position.

Compact durability
Designed for portability with an IP64 rating for dust-tight and water-resistant reliability on the go.

Seamless integration
Certified for Microsoft Teams and Zoom, with tools like Dell Display and Peripheral Manager for quick setups and enhanced efficiency.



Plug-and-play simplicity
Enjoy instant setup with an integrated USB-C connection and in-box USB-A adapter for broad compatibility.

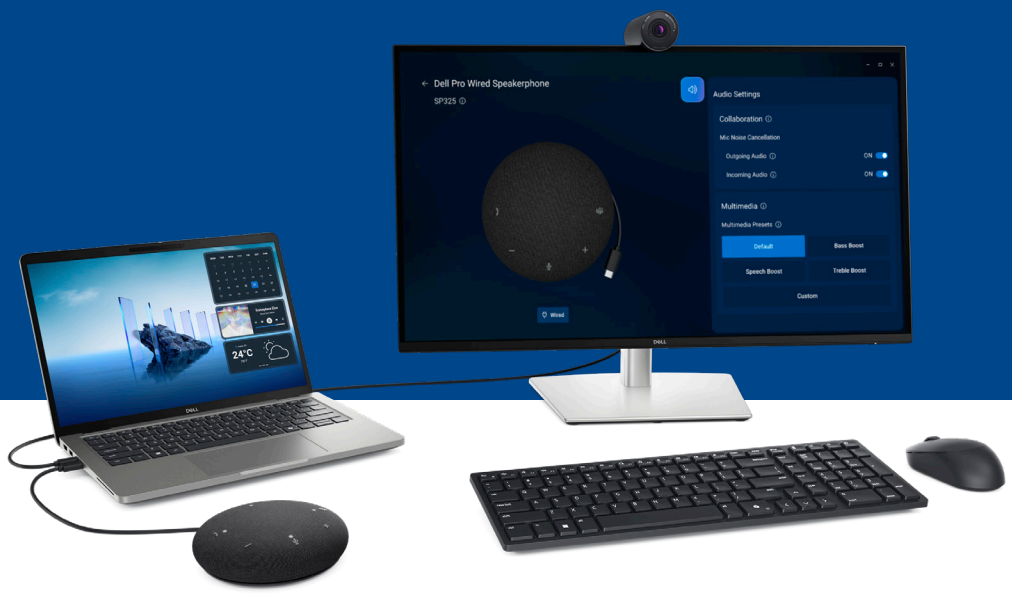
Dell Display and Peripheral Manager



Personalize your settings

Enhance and personalize your audio experience with Dell Display and Peripheral Manager[1]

Set up is quick and easy, eliminating the need for complicated installation guides. Dell Display and Peripheral Manager[1] installs instantly[2] on your PC, providing seamless guidance to get you started right away.

With this intuitive software, you can personalize your audio experience by assigning preset modes like Speech, Bass Boost, or Treble Boost, creating tailored audio presets with the Audio Equalizer, and toggling AI noise cancellation on/off to suit your environment. Stay effortlessly updated with the latest firmware updates, ensuring optimal performance and control over your sound environment.

For IT managers, discover expanded Command Line Interface features from Dell Display and Peripheral Manager.

Screen image simulated for illustrative purposes only. Monitor model varies.

1 Dell Display and Peripheral Manager is compatible with Microsoft Windows 10, Windows 11 on ARM, Windows 11 for Education and Mac OS operating systems.

2 Manual installation may be required for some cases due to individual system security requirement.
