DATASHEET (ENGLISH - NA)

REACH

Effortless BYOD. Every room. Every time.

FEATURES

ONE CABLE. BYOD FOR THE WHOLE TABLE.

- BYOD across the room: Jabra Reach is a single cable that extends BYOD to the entire table.
- Compatible with all Jabra video room solutions: One USB-C connection works with all devices.*
- Seamlessly reliable: Jabra Reach delivers lossless audio, video and content, in any size room.

FAST, TIDY INSTALLATION

- Streamline setup: Quick and easy single-cable installation instead of multiple adapters and cables.
- Smart, professional finish: Sleek design fits behind the TV and under the table.
- Reduced complexity: With minimal cabling required, common failure points are removed.

EASY MANAGEMENT

- Centralised control: Manage devices across all rooms from a single platform with Jabra Plus Management.
- Secure and durable design: Tamperproof construction and concealed ports improve reliability and protect installations.
- Simplified operations: IT leads will experience reduced management and fewer day-to-day tickets.

SCALABLE FOR EVERY TYPE OF ROOM

- One accessory. Every space: Engineered to enhance BYOD across all room shapes and sizes.
- Standardized deployments: Modular components make it easy to configure different room types.
- Scale with your business: Predictable, scalable management for multi-room and multi-site rollouts.

SEAMLESS PLUG & PLAY

- Instant connectivity: Users simply connect a single USB-C cable into their laptop. Users can also charge during calls (power supply sold separately)[1]
- Reliable performance: Lossless extension of audio, video and content, consistently and predictably.
- No drivers or software: No setup required, just true Plug & Play.

ONE SETUP FOR INSTALLERS. ONE SYSTEM FOR IT. ONE EXPERIENCE FOR USERS.

Technical Specifications
