VPL-CW256 & VPL-CW276 Projectors

WXGA resolution installation projectors with 4500 and 5100 lumens brightness

ECO Lamp Dimming

These projectors (if this function is selected) can reduce brightness by 10-15% without detection as well as reducing power consumption. After a user pre-sets the time, the power consumption will reduce even more and the brightness will reduce to 30%, with instant 100% brightness returning as soon as a new signal input is detected.

ECO Picture Mute - (Instant Off/Instant On)

The new ECO Picture Mute feature reduces brightness to 30% and reduces power consumption with a push of a button saving cost and lamp hours. This feature can be used in the classroom as instant off/instant on in-between class changes or in the corporate market as a tool to redirect attention away from the screen. There is no need to power completely off and turn back on which is time consuming.

4000/5000 Hours Lamp Life*

A new driving scheme reduces gap expansion that minimises brightness gradation. A new cooling system allows uniformity in the temperature of the glass bulb which prevents the glass from clouding.

* VPL-CW256 has recommended lamp replacement time of 5000¹ hours in Low lamp mode. VPL-CW276 has recommended lamp replacement time of 4000¹ hours in Standard lamp mode.

The VPL-CW256 and VPL-CW276 are designed to deliver a low total cost of ownership and include easy to operate, environmentally conscious features without compromising on superior quality and reliability.

The projectors offer 4500 and 5100 lumens of colour brightness and 1.32 - 1.91:1 throw ratio for new or replacement business in most large classrooms or large meeting rooms.

Furthermore, in common with all Sony projectors, these projectors feature the Sony BrightEra 3LCD inorganic panel technology that delivers higher picture quality, substantially brighter images, higher efficiency, better contrast, consistent colour stability and longer durability and usability.

The VPL-CW256 features 3 brightness modes to suit each individual user's needs. The low brightness mode generates lower operating costs by reducing power consumption and extending the lamp lifetime to approximately 5000 hours. The VPL-CW276 replaces the low mode brightness feature with Auto Mode, allowing the lamp brightness to change with the image presented for optimum efficiency and picture quality. Both projectors have video inputs, HDMI and RJ45 or RS232C connectors for control, and a contrast ratio of 3700:1 for the VPL-CW256 and 3000:1 contrast ratio for the VPL-CW276.

Lens Shift Function

The projectors are equipped with horizontal and vertical lens shift functions for greater installation flexibility. Using this function, the position of the projected image can be moved vertically +/- 5% and horizontally +/- 3%.

1.32 - 1.91:1 Throw Ratio

Both offer a 1.32 - 1.91:1 throw ratio that can accommodate most large classrooms or large meeting rooms current replacement installation.

Other Features

ECO Mode Key

Users can easily select power-saving ECO Modes. The most energy-efficient mode is accessible through a single button-push with further adjustments available through an easily understood menu system.

Filter replaced at the same time as Lamp

The filter only needs to be changed when a new lamp is fitted, potentially halving disruption due to maintenance.

Vertical and Horizontal Keystone Adjustment

The projectors can correct keystone distortion* by V: +/- 30% H: +/- 20% for perfect installation adjustment.

* Note that since this is an electronic correction, it will reduce the picture quality slightly.

Image Warping

The image warping feature allows an 8 point (4 corners and 4 sides) image adjustment for convex or concave projected surfaces. Making adjustments is easy with the remote control and the on-screen operating menu.

Digital Zoom

With Digital Zoom, users can enlarge a selected area of a computer-source image on the screen up to four times.

Multiple Picture Modes

The VPL-CW256 and CW276 have six picture modes (Dynamic, Standard, Game, Living, Cinema and Presentation) that can be selected to suit the nature of the source material.

3LCD BrightEra Technology

The Sony 0.63 inch BrightEra inorganic TFT 3-LCD panels deliver improved panel light resistance, higher resolution, high brightness and increased panel reliability.

Smart APA (Auto Pixel Alignment)

When a computer is used as a picture source, APA automatically optimises Phase, Pitch and Shift values. These can also be adjusted manually.

Auto Input Search

Auto Input Search detects which input has an incoming signal and automatically switches to it. This makes it easier for users to set up the projectors prior to making a presentation.

Picture Muting

If the picture needs to be turned off, all it takes is a single button-press on the remote control. This will mute audio at the same time. There is also a separate "mute audio" button for audio-only muting.

Audio Switcher Facility

To avoid the need for a separate audio switcher, the projectors can be used to select between two audio sources, routing them via a variable audio output to the room amplification system.

Picture Freeze Function

Picture Freeze is useful during presentations where users need to look at other material on their PC's screen without the viewing audience being aware. Freeze the current image and users can use their PC independently of the display from the projectors.

Off and Go

At the end of a presentation, users can turn off the power supply to the projectors immediately, instead of going through a 'power down' cycle.

Direct Power On/Off

With this function, there is no need to go through 'Standby' mode when powering up the projectors. The projectors can be set to activate as soon as power is supplied.

Built-in Security Measures

Both projectors have a package of security measures, including password protection and physical anti-theft anchor points.

Projectors sold into the EU, Norway and Switzerland come supplied with a 3 Year projector and 1 year/1000 hour lamp cover PrimeSupport pack. This offers unique services and benefits over and above standard warranty:- 3 Year projector and 1 year/1000 hour PrimeSupport Cover.

Freephone telephone helpdesk support (00800 7898 7898) in 5 languages.

Collection, repair and return anywhere in EU, Norway and Switzerland.

In addition, optional PrimeSupport Plus packs can be purchased which can further enhance the 3 year support to give extra peace of mind:-

- A 2 year extension of the standard 3 year PrimeSupport to give long-term assurance of expert support, technical assistance and repairs for 5 years from purchase date.
- Provision of a loan unit for 3 or 5 years cover to ensure minimal impact to the customer's business in case of product failure.

Specifications

		VPL-CW256	VPL-CW276
Display system		3 LCD system	
Display device	Size of effective display area	0.75" (19.0 mm) x 3, BrightEra, Aspect ratio: 16:10	
	Number of pixels	3,072,000 (1280 x 800 x 3) pixels	
Projection lens	Zoom	x1.45	
	Focus	Manual	
	Lens Shift	Manual V: +/- 5% H: +/- 3%	
Throw Ratio		1.32 - 1.91:1	
Light source		High-pressure mercury lamp 245 W type	High-pressure mercury lamp 280 W type
Recommended lamp replacement time*1		3000 H / 4000 H / 5000 H (Lamp mode: High / Standard / Low)	3000 H / 4000 H (Lamp mode: High / Standard)
Filter cleaning cycle*1		Max. 5000 H / same time as lamp replacement is recommended	Max 4000 H / same time as lamp replacement is recommended
Screen size		40" to 300" (1.02 m to 7.62 m)	
Light output (Lamp mode: High / Standard / Low)		4500 lm / 3400 lm / 2500 lm	5100 lm / 4200 lm / Auto
Colour light output		4500 lm / 3400 lm / 2500 lm	5100 lm / 4200 lm / Auto
Contrast ratio (full white / full black)*2		3700:1	3000:1
Fan noise		29dB (Low)	34dB (Standard)
Speaker		10 W x 1 (monaural)	
Displayable scanning frequency	Horizontal	19 kHz - 92 kHz	
	Vertical	48 Hz - 92 Hz	
Display resolution	Computer signal input	Maximum input signal resolution: UXGA 1600 x 1200*3 (resizing display), Panel display resolution: 1280 x 800 pixels	
	Video signal input	Video (Composite), 15k (480/60i, 575/50i), DTV (480p/60p, 575/50p, 720/60p, 720/50p, 1080/60i, 1080/50i)	
Colour system		NTSC3.58, PAL, SECAM, NTSC4.43, PAL-M, PAL-N, PAL60	
Colour System Resolution		720 TV Lines	
(V & H) Keystone correction		Vertical: Max. +/- 30 degrees Horizontal: Max. +/- 20% degrees	
OSD language		23-languages (English, French, German, Italian, Spanish, Portuguese, Japanese, Chinese, Korean, Russian, Dutch, Norwegian, Swedish, Thai, Arabic, Turkish, Polish, Vietnamese, Farsi, Indonesian, Finnish, Hungarian, Greek)	
Computer and video signal input/output	INPUT A	RGB / Y PB PR input connector: Mini D-sub 15-pin (female), Audio input connector: Stereo mini jack	
	INPUT B	RGB input connector: Mini D-sub 15-pin (female), Audio input connector: Stereo mini jack	
	INPUT C	HDMI 19-pin, HDCP support. Audio: HDMI audio support	
	INPUT D	HDMI 19-pin, HDCP support. Audio: HDMI audio support	
	VIDEO IN	Composite / RCA Audio (L/R)	
	OUTPUT	Monitor output connector*4: Mini D-sub 15-pin (female), Audio output connector*5: Stereo mini jack (variable out)	
Control signal input/output		RS-232C connector: D-sub 9-pin (female)	
Operating temperature (Operating humidity)		LAN connector: RJ45, 10BASE-T/100BASE-TX	
Storage temperature (Storage humidity)		0°C to 40°C / 32°F to 104°F (35% to 85% (no condensation))	
Power requirements		-10°C to 60°C / -4°F to 140°F (10% to 90%)	
Power consumption	AC 100 V to 120 V	AC 100 - 240V, 3.5A to 1.5A, 50Hz/60Hz	AC 100 - 240V, 4.0A to 1.7A, 50Hz/60Hz
	AC 220 V to 240 V	346W / 282W / 241W (lamp mode: High / Standard / Low)	395W / 341W (lamp mode: High / Standard)
Power Consumption (Networked standby Mode / Standby Mode)	AC 100 V to 120 V	326W / 267W / 230W (lamp mode: High / Standard / Low)	372W / 320W (lamp mode: High / Standard)
	AC 220 V to 240 V	3W (LAN) when standby is set to Standard / 0.5W when standby is set to Low	
Heat dissipation	AC 100 V to 120 V	1180 BTU/h	1348 BTU/h
	AC 220 V to 240 V	1112 BTU/h	1269 BTU/h
