

GLORY

USF-VT2 / USF-VT3

Banknote sorter

A compact, efficient and accurate banknote sorter, the USF-VT series effortlessly handles large volumes of notes significantly improving your cash handling processes, performance and productivity of your staff. With its ergonomic layout and highly intuitive user interface, combined with features that ensure the operator's day-to-day task of processing banknotes is simple and comfortable.

The USF-VT series is an ideal solution to provide 2-way or 3-way fitness sorting with unprecedented usability and remarkable processing speeds.

Accelerated efficiency

The USF-VT series offers reliable banknote authentication and sorting quality, while its compact footprint allows it to fit into the operator's workspace. USF-VT series has a large, user-friendly screen that helps improve operator efficiency.

Designed for heavy use

The USF-VT series is designed to withstand heavy use in cash centres, reliably processing even poor quality banknotes with its robust transportation path design.

Easy user maintenance

The USF-VT series features a fully opening transport that allows simple routine maintenance to be performed by the operator. In the event of a banknote or foreign object jam in the counting or transport section, the wide-opening design makes it easy to find and remove the jammed object.

Full colour touch screen provides a clear view of displayed information.

Fully accessible note paths provide quick access for simple maintenance.
