Cloud access for distant learning

A range of interactive tools to increase student involvement in a blended learning environment. Create lessons on the go, at home, or in another classroom, on any device. Your school can set up a LYNX Cloud account, so content and resources can be shared. You can send students interactive files for them to review and complete. Live quizzes can also be launched that students can access from their own devices via QR code. LYNX Cloud can also sync with other cloud based drives such as OneDrive, Google Drive, Lynx Cloud or Dropbox - allowing you to input it directly into your lessons.

LYNX Whiteboard has now partnered with PhET to give you over 80 FREE STEM activities to use in your classroom or set as homework.
