

Jabra Scheduler

(Mullion Mount installation)

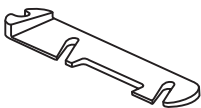

Scheduler

Mullion Mount

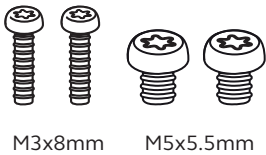

Wedge (distance and locking tool)

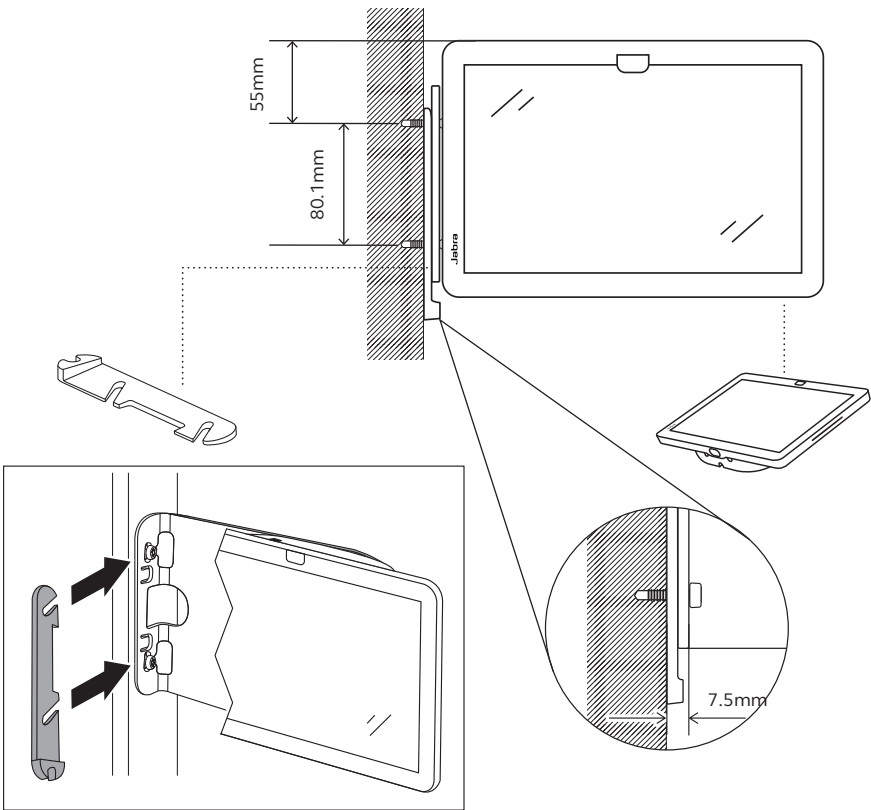

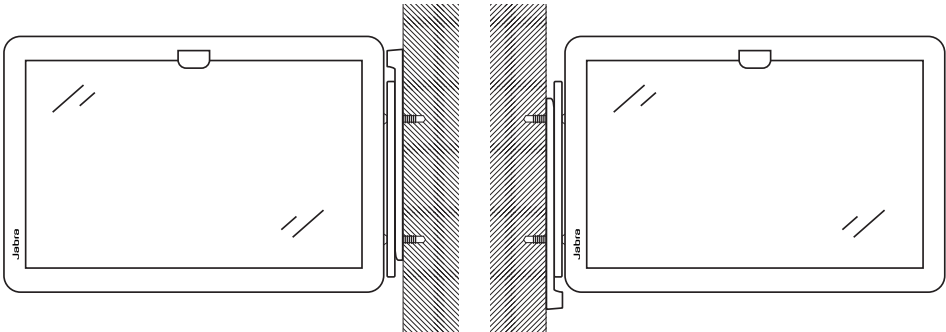

Cardboard template
(distance template)

Screws

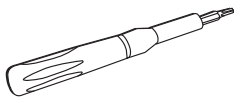

Video instructions

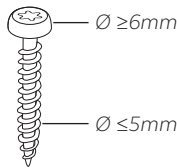

Tools needed (not supplied in the pack)

Power over Ethernet cable

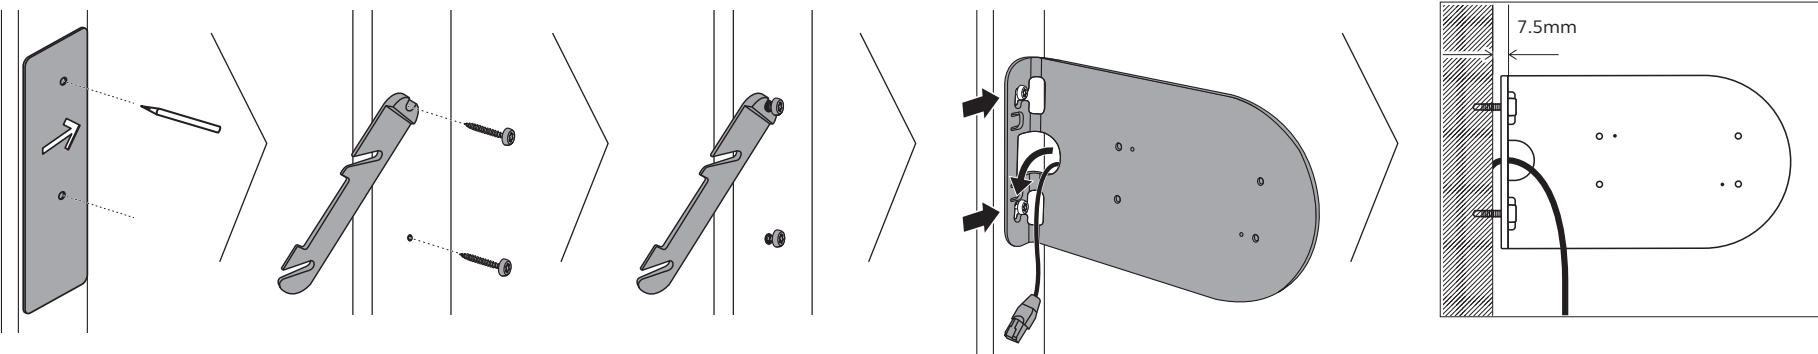

Screwdriver
(T10 & T25)

Screws
(non-countersunk screw head)

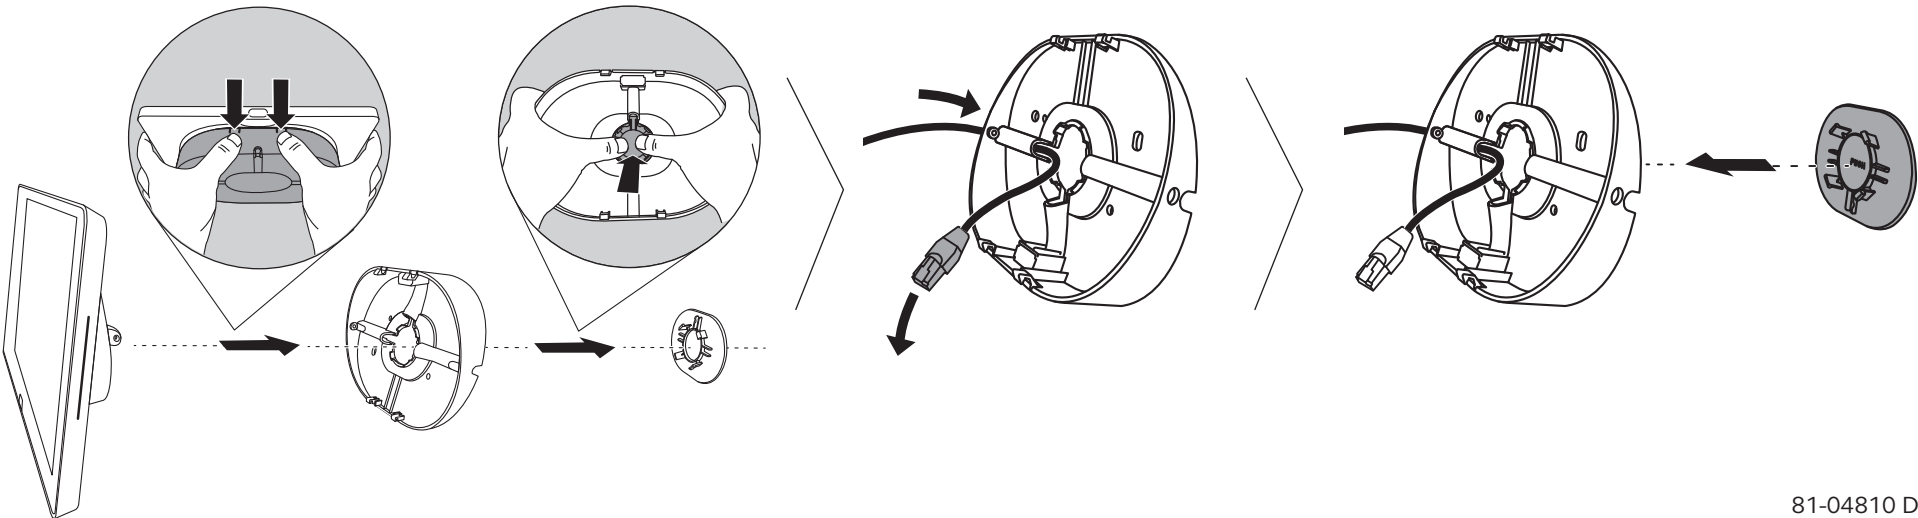

1

Use the cardboard template to mark the correct hole distance from the wall. Use the wedge to mark the correct screwhead offset from the mounting surface.

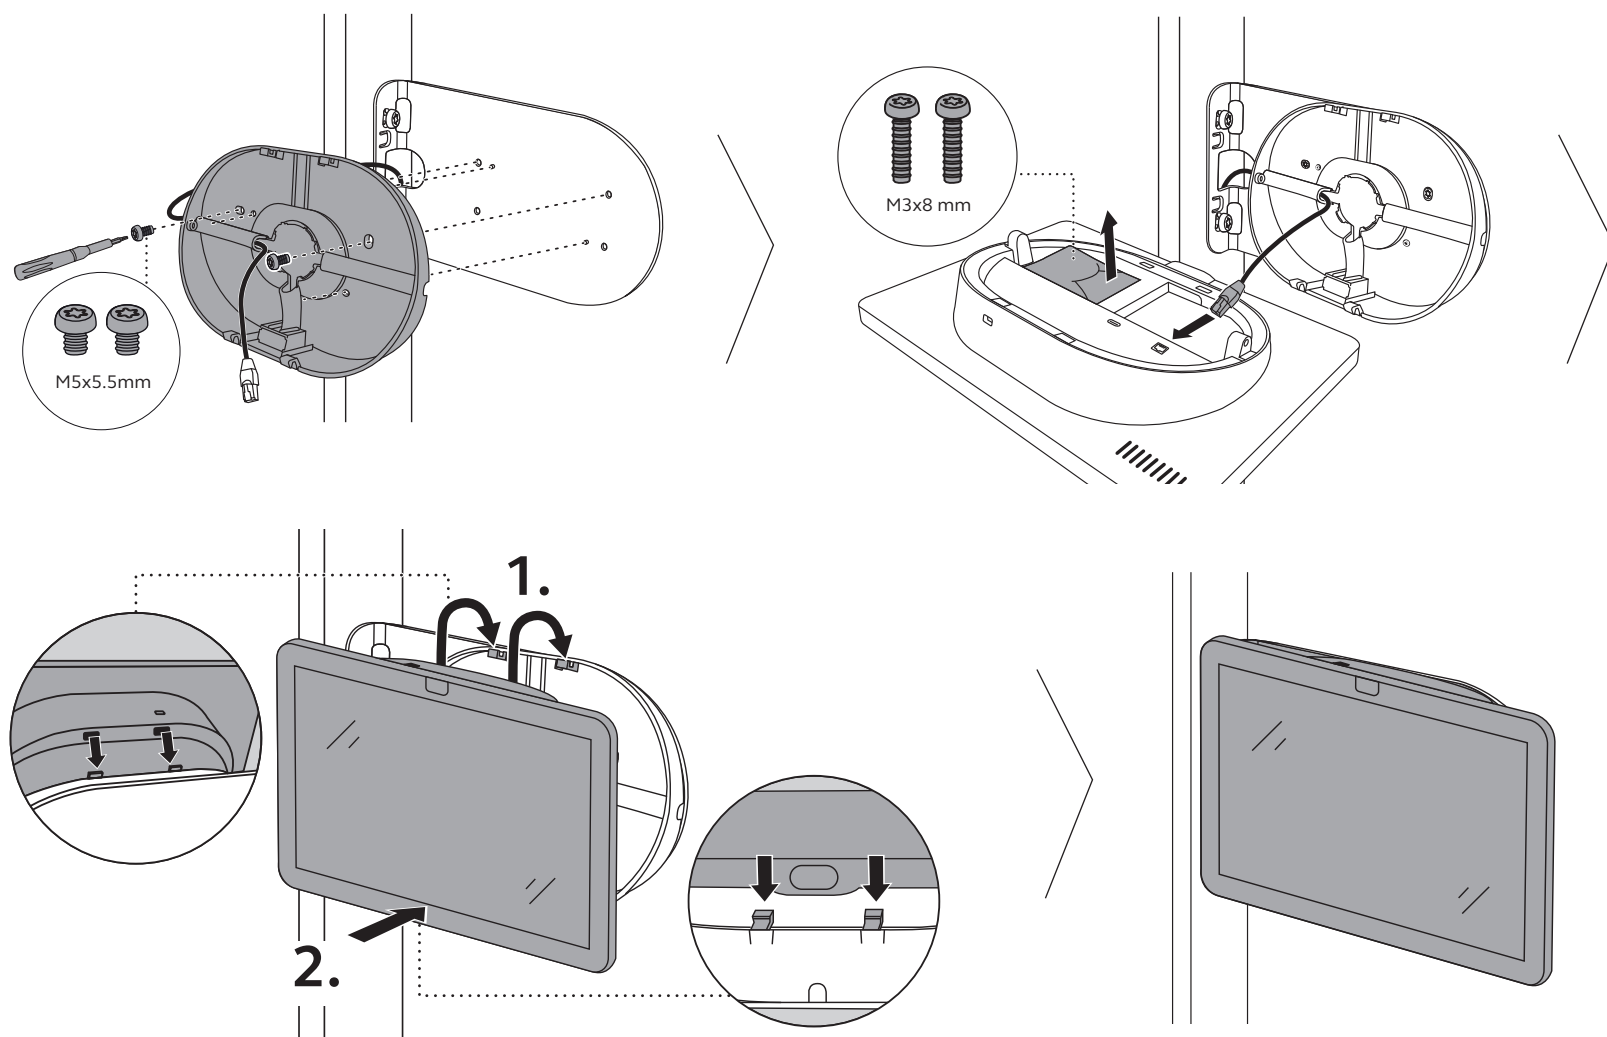

2

Route the Power over Ethernet cable.

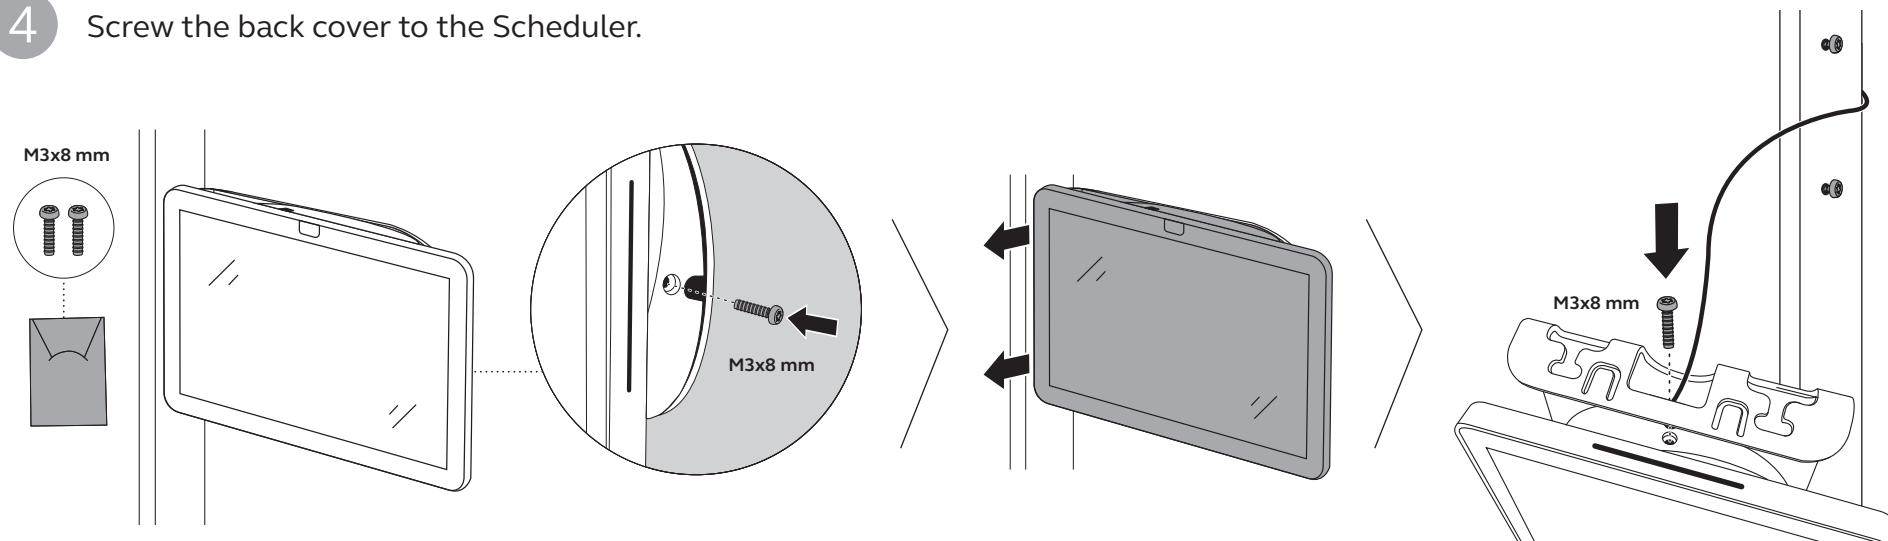

3

Screw the back cover to the Mullion Mount. Connect the Power over Ethernet cable and mount the Scheduler.

4

Screw the back cover to the Scheduler.

5

Re-mount the Scheduler. Place the wedge between the Mullion Mount and the mounting surface to secure the installation.
