Thank you for choosing **MAXHUB** product.

To ensure that you are able to fully utilize the capabilities of the product, we ask that you please read this quick start guide carefully and thoroughly before using the device. Should you have any questions or require assistance, please do not hesitate to contact our technical support team for guidance.

Safety Information

• Be Careful of Electric Shock or Fire

- (1) This device is not waterproof, please keep it dry; if water is immersed in this product, please shut down immediately and contact the customer service center according to the prompt provided by the customer service center before using it again.
- (2) Never place this device and accessories near the burning flames or other heat sources, including direct sunlight.
- (3) This device should be turned off and unplugged before lightning storms.

• Be Careful of Short Circuit or Catching Fire

- (1) Before connecting this device to an electrical outlet, please make sure that the power supply voltage matches the voltage value printed on the back or bottom of the product. Never connect the product to an electrical outlet when the voltage is different.

• Take Care Not to Injure or Damage this Device.

- (1) Never place this device or any objects on a power cord or other electronic devices.
- (2) If this product is transported at a temperature below 5°C, please unpack the product and wait until the temperature reaches room temperature before connecting it to a power outlet.
- (3) This product comes with sharp objects, please handle it carefully so as to avoid injury to the user or scratching the appearance of the product or damaging the internal parts of the product.

• Be Careful of Overheat

- (1) Never install this device in an enclosed space. Always leave at least 4 inches space around the product for ventilation.

Care For the Product

- (1) Clean this device only with a piece of microfiber cleaning cloth.

Care For the Environment

- (1) This device applies recyclable high-performance materials and components. Never dispose of this product with other household wastes. Please understand the local regulations on the sorting collection of electronic products.
- (2) Proper disposal of these products helps to avoid potential negative effects on the environment and human body health.

Maintenance & Servicing

- (1) Please contact professional service personnel for all repair services.
- (2) Please do not insert any sharp object into the inside of the device.
- (3) Please do not drop or hit the device to avoid damaging it.

4	Microphone	Keep towards to the sound source for optimal effect.
5	Mute Button	Press once to enable/disable the mute function.
6	Volume Up	Press to increase volume (cancel mute mode directly).
7	Volume Down	Press to decrease volume (cancel mute mode directly).
8	Back Clip	For use in various scenarios.
9	Charging Port	Supports fast charging.

IV. Operation

- 1. Before use:** This device needs to be used with a integrated powered speaker or a portable mobile speaker.
- 2. In use:**
 - i. Turn on the microphone to enter pairing mode (LED indicator flashing).
 - ii. Aim the infrared module of the microphone at the pairing speaker and keep the distance within 5 meters.
 - iii. The microphone automatically pair and connect to the speaker. The LED indicator stays on and the paired speaker emits a "beep" sound, then the connection completes.
 - iv. When connecting to speakers without an infrared pairing function, simply turn on the microphone and keep it within two meters of the speaker. Pairing will complete automatically (the LED indicator will stay on and you will hear a "beep" sound to indicate that pairing is complete).
- 3. Function Description:**
 - i. One speaker can connect up to two microphones at the same time. Simply turn on the microphones successively to pair them.
 - ii. This device offers two options for sound pickup and amplification: you can either use the built-in microphone or connect an external microphone via the USB Type-C port.

III. Simple Troubleshooting

Please refer to the steps below for simple troubleshooting:

1. Check if the microphone is in the mute mode (LED indicator: red solid).
2. Try increasing the microphone volume.
3. Re-pair the microphone and speaker.
4. Check if the microphone is connected to the wrong device.

If the above steps cannot solve the problem, please contact our technical support team for assistance.
