

OneScreen™

Video & Collaboration Hub

Barrier-free work flow with access to all of your work tools, teams, and data in one touch.

Successful meetings and impromptu collaboration requires:

Easy access to find and communicate with people

- Unified access to Contacts on multiple platforms
- Unified view of real time Contact presence status (away, available, do not disturb)
- One click to impromptu video, call, meet, or chat
- Anytime one-to-one chat
- Schedule meetings
- Schedule cross-platform meetings, or meetings on other platforms
- Individually resizable or templated video/content window layout options
- Broadcast style chat to all meeting participants
- Add & Search Contacts
- Individual user control over meeting tools (video windows, recording, audio etc.)

Easy access, sharing, and manipulation of content

- One click to open documents or applications
- Customizable home screen links for one click access to assets
- Desktop, individual document or application sharing
- Simultaneously stream and view multiple screens
- Annotation on video and over shared desktop
- Virtual whiteboard with real-time, shared whiteboard annotation capability
- Record and save live whiteboard sessions
- Cloud based and local recording of screen, assets and audio
- Support for multiple camera, simultaneous feed
- Encryption for secure sharing

Technology, platforms, & apps that seamlessly work together

- Single sign-on and access point for multiple web and video conferencing platforms
- Simple, impromptu video calls with anyone online with a camera, no download required
- Host video meetings or calls with SIP/H.323 codecs (Cisco, Polycom etc)
- Host multi-platform meetings (attendees from different platforms in one meeting room)
- Unified access point to join, host and schedule other platform meetings: WebEx, Adobe Connect, Skype for Business and Skype
- Hold web browser (WebRTC) based meetings
- Software compatibility with Windows 7, 8, 10
- Desktop, laptop, smartphone, tablet device compatibility

One click access to on-demand, live help

What to know about OneScreen:

OneScreen is available as a cloud-based service, on-premise software and bundled with touch screens
