

Get Started with Touchscreen Core

Screen Navigation

Anywhere on the Screen **Write / Annotate**

The back end serves as an eraser.

The stylus's lead tip works as a pen.

Use your finger to navigate between different apps.

Your palm acts as an eraser, allowing you to clear annotations seamlessly.

You can annotate over any app or screen. Save your annotation in Files or export to Whitebaord / Write app.

Writing Tips for the **Whitebaord / Write App**

The back end serves as a broad-point pen for thicker strokes.

The stylus's lead tip operates as a fine-point pen.

In Write, finger is used for selecting and interacting with elements.

Your palm acts as an eraser, allowing you to clear annotations seamlessly.

Use pre-loaded tables, templates, shapes, and media. Export lesson content as PDFs or email it directly to students.

Preinstalled Apps

Access YouTube, Chrome, Google Docs, and more. Swipe up or use the toolbar to browse preinstalled apps or download others apps from Google Play.

AI Tools

Leverage AI for educational chat, smart text and image extraction with translation. Effortlessly create lessons and quizzes to streamline your lessons.

Wireless Projections

Use AirPlay, Chromecast, or Miracast to project your devices with OneScreen Share. Use the code on the top of the home screen to connect your device. Download these apps from this URL: onescreensolutions.com/downloads

My OneScreen

My OneScreen provides a pre-installed knowledge base with resources, tools, and options to schedule training or generate support tickets.

AI-based Quizzes and Polls

QuizWiz delivers editable, real-time polls and quizzes in seconds using your trusted content. Integrated with Google Drive and Google Forms. Save and share results. URL: quizwiz.onescreensolutions.com

Transcription / Translation

Scrybe delivers real-time closed captions, translation in 28 languages, AI-driven transcription summaries and topics generation.

Simple Lesson Creation

Lessn helps create interactive, accurate AI-powered lessons for engaged classrooms or create their own AI-driven lessons. URL: lessn.ai

Smart Summary

SuprNotes is a Scrybe-based tool that creates a comprehensive summary of your lecture including transcription, voice, on screen videos and documents.

Download and Installation

The OneScreen GURU app can be downloaded using the following QR code:
