

To distribute video by using the RTMPS protocol

You need to install a CA certificate to distribute video by using the RTMPS protocol with this device. As of May 10, 2021, it was confirmed that it is possible to distribute video to YouTube Live / facebook by installing on this device a file provided by a third party that can be downloaded from the following third party's website. Please refer to the instruction manual of this device for installation.

CA certificate download site: <https://curl.haxx.se/docs/caextract.html>

File to be downloaded: cacert.pem
