6. Choose whether to turn on Google services like location services, usage and diagnostic data collection, and automatic updates. Tap **Accept** after you complete the settings.

Google services

Tap to learn more about each service, such as how to turn it on or off later.
Data will be used according to Google's [Privacy Policy](#).

Send usage and diagnostic data

Help improve your Android device experience by automatically sending diagnostic, device, and app usage data to Google. This will help battery life, system and app stability, and other improvements. Some aggregate data will also help Google apps and partners, such as Android developers. If your additional Web & App Activity setting is turned on, this data may be saved to your Google Account.

Install updates & apps

By continuing, you agree that this device may also automatically download and install updates and apps from Google, your carrier, and your device's manufacturer, possibly using cellular data if Wi-Fi isn't available. Data rates may apply. Some of these apps may offer in-app purchases. You can remove these apps or change your automatic update settings at any time.

[Show more](#)

By tapping "Accept", you agree to the [Google Terms of Service](#). You also confirm your selection of these Google services settings. Note: The [Google Privacy Policy](#) describes how data is handled when using Google services.

Accept

7. Turn on **Yealink Cloud Service** after confirming the end-user license agreement. After turning it on, you can use the device management and auto update features.

- a. To use the device management, turn on **Cloud Platform Device Management**, tap **Yealink Device Management Platform**, and configure the parameters.

Where to find the **Enterprise ID** (Deployment ID) on YMCS?

Log in to the YMCS, and go to **System > Enterprise Information**.

- b. To keep your software up to date, turn on **Auto Update** and configure the parameters.

8. Select the UC provider as needed and go to the next step.

9. Set the admin password and go to the next step. Due to regulatory requirements, it is necessary to change the password.

The system is using the default password. For security reasons, please reset the password now

Admin Password

IP: 10.50.169.24

New Password

Confirm Password

Format requirements for the new password:

- The password must contain at least 8 characters
- At most 3 consecutive repeating characters
- Must contain a combination of at least three of the following character types: lowercase letters, uppercase letters, numbers, and special characters
- The password cannot be the same as the account
