

Pair VCM35 with Yealink MeetingBoard

Introduction

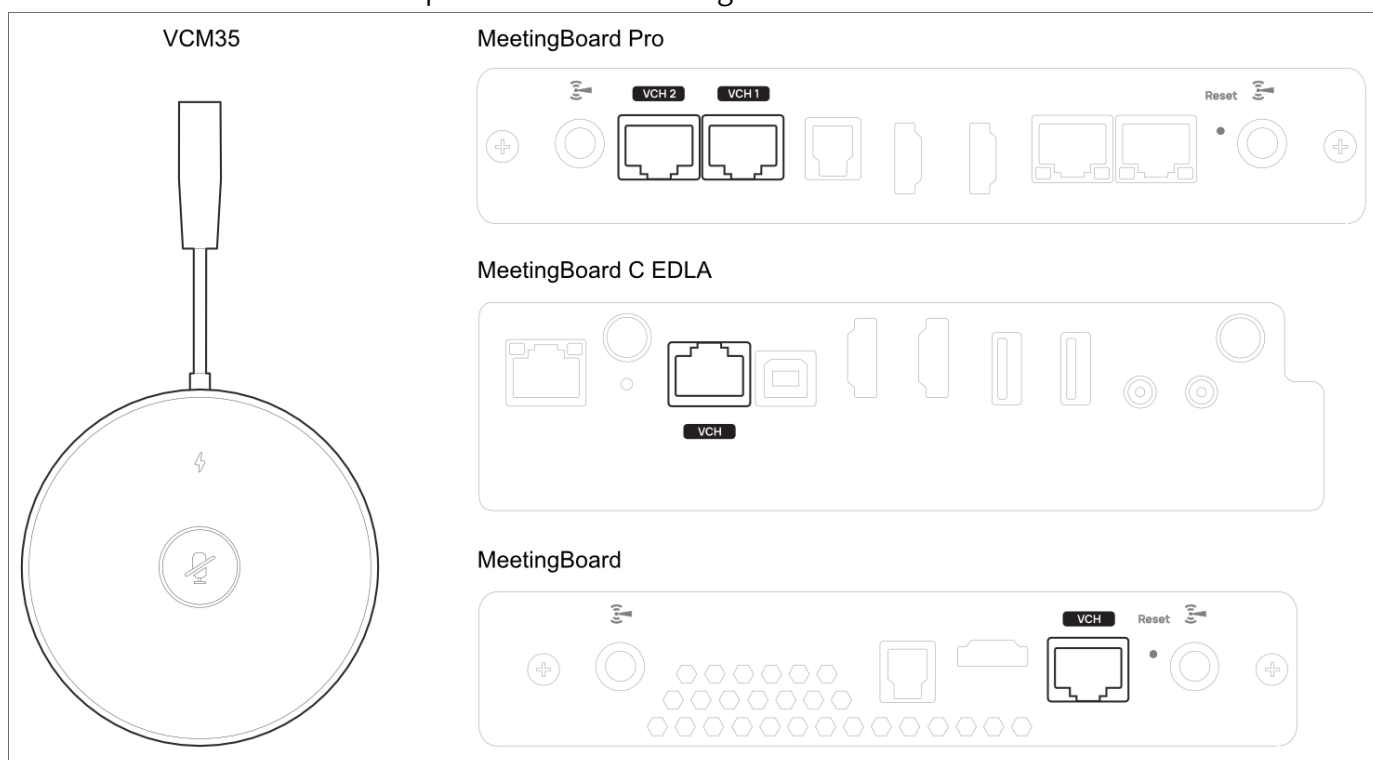

Yealink VCM35 is a wired video conferencing microphone array specially designed for the new generation of Yealink Video Conferencing System. Its built-in 3-microphone array with a 20 ft (6m) and 360° voice pickup range is an ideal solution for any conference room that needs the best audio experience. With the Yealink Acoustic Echo Canceling and Yealink Noise Proof Technology, Yealink VCM35 can effectively reduce ambient noise up to 90 dB and give you a high-quality audio experience in full-duplex calls. Yealink VCM35 supports star-cascaded deployment, and its extremely high scalability and flexibility make deployment more convenient and faster, and can fully cover conference rooms of various sizes.

Before you Begin

- For the compatibility of VCM36-W and Yealink MeetingBoard, refer to [Rooms Accessories Compatibility Lists](#).
- For more information about the VCM36-W, refer to [Yealink VCM36-W Quick Start Guide](#).

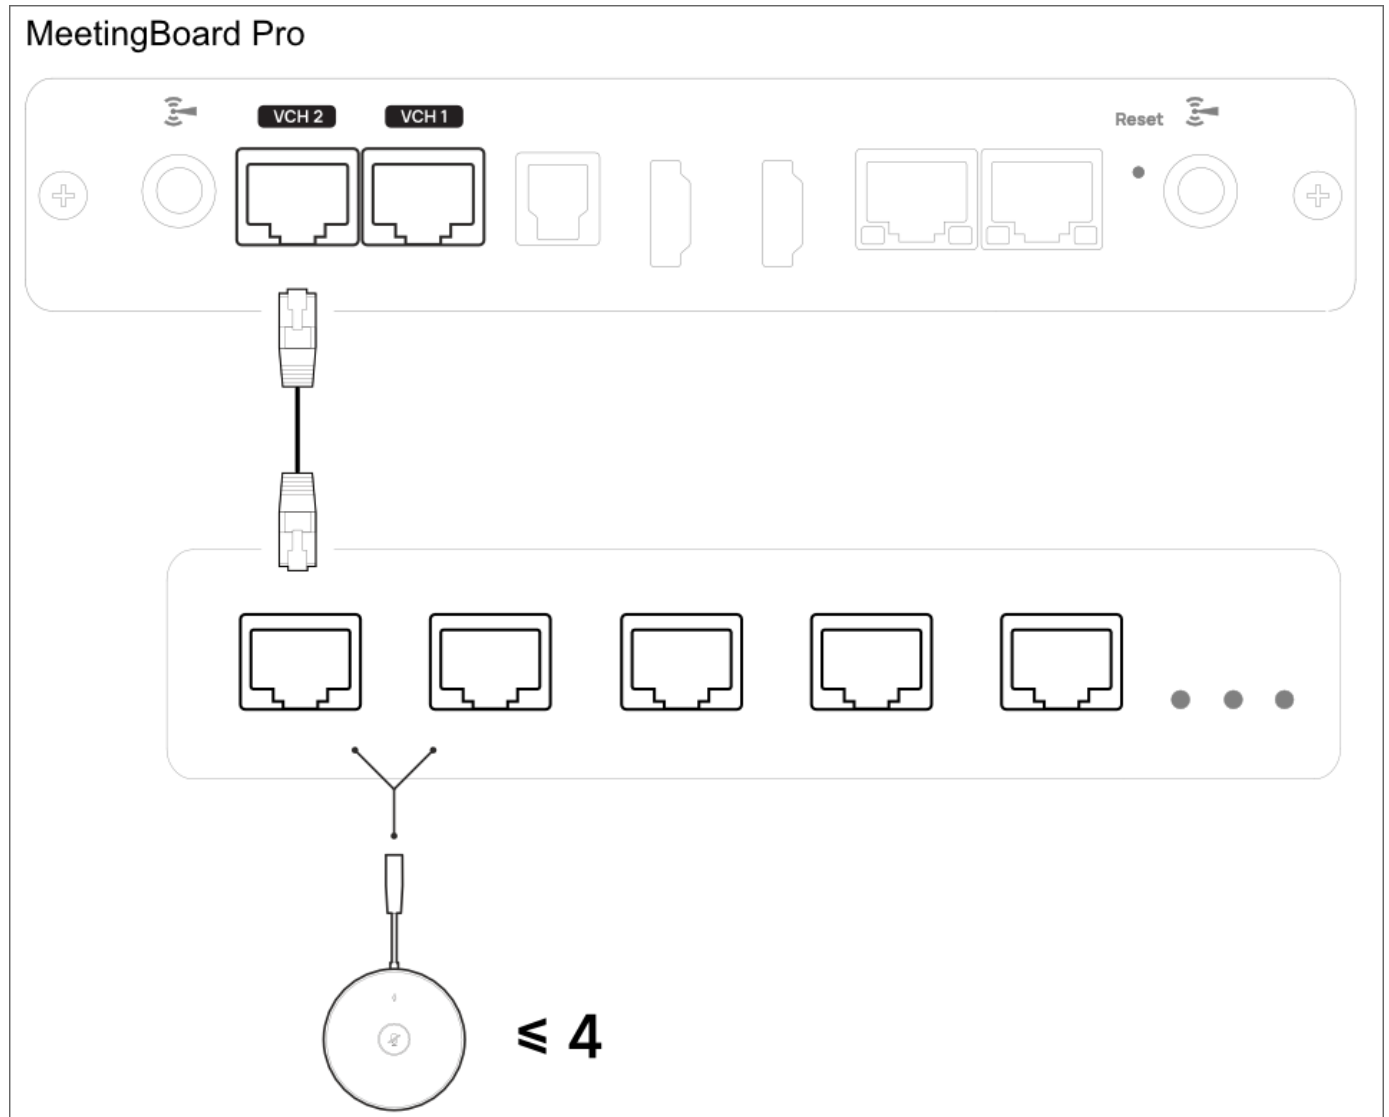

Connect VCM35 to Yealink MeetingBoard

- Connect the VCM35 to the VCH port of Yealink MeetingBoard.

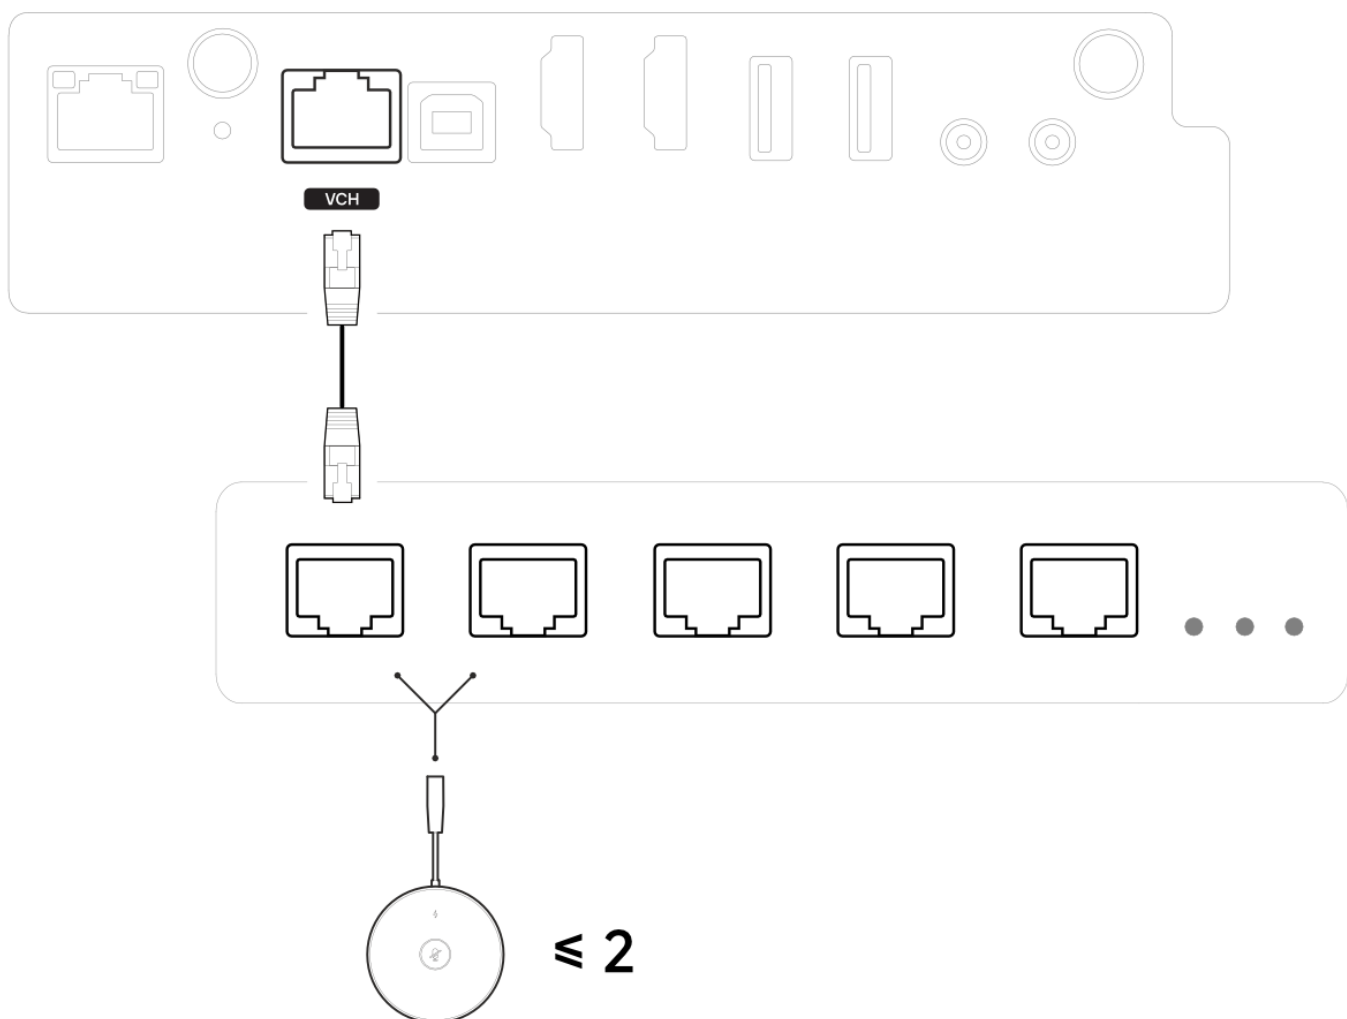

Use a Switch to Connect Multiple VCM35 to Yealink MeetingBoard

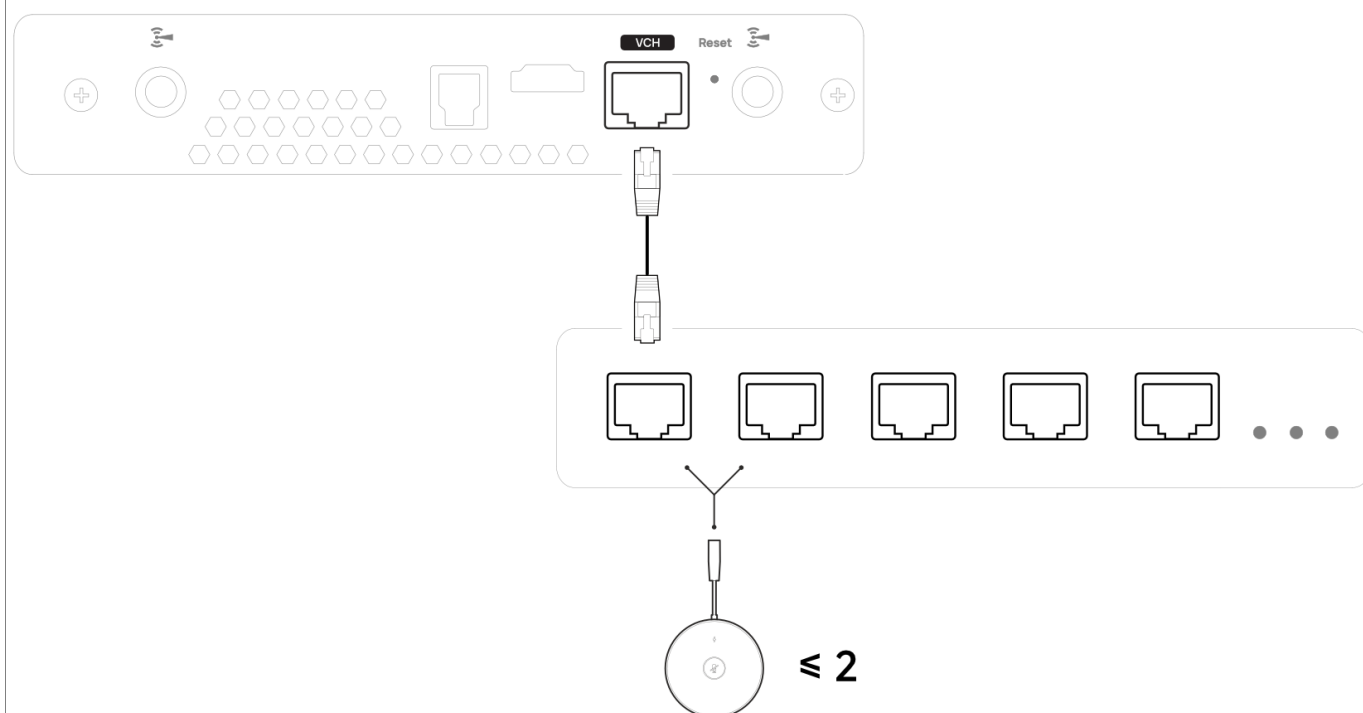

1. Use a network cable to connect a switch to the VCH port of Yealink MeetingBoard.
2. Connect the VCM35 to the switch.
